

Showroom Detail — Service Checklist

PAINT CORRECTION · SEALANT · EXTRACTION

Workflow: Everything in Full Detail, plus one-step correction, sealed protection and shampoo/extraction. Tape trim before machine work; check paint under a light at every stage.

Customer _____ Vehicle _____ Date _____

Add-ons _____ Vehicle size _____ Detailer _____

1 Setup & paint inspection

- ☐ Confirm package + add-ons; photo existing damage
- ☐ Inspect paint under inspection light — note swirls/defects
- ☐ Set up water, power, mats & shade

2 Wheels + undercarriage flush

- ☐ Clean wheels, tires & wheel wells
- ☐ Flush undercarriage & wells (salt / road grime)

3 Wash + bug & sap removal

- ☐ Pre-rinse; treat bugs & sap/tar
- ☐ Foam / two-bucket wash; rinse & dry

4 Decontamination

- ☐ Iron/fallout remover — dwell & rinse
- ☐ Clay every panel; dry

5 One-step paint correction

- ☐ Tape off trim, badges & edges
- ☐ Machine compound/polish, section by section
- ☐ Wipe each section with panel-prep/IPA to verify
- ☐ Re-inspect under light — confirm gloss

6 Protect

- ☐ Apply sealant or ceramic spray, panel by panel
- ☐ Level & buff to a clear, high-gloss finish
- ☐ Seal the wheels

7 Interior shampoo & extraction

- ☐ Vacuum thoroughly (seats, carpets, crevices)
- ☐ APC deep-clean panels, vents & seams
- ☐ Shampoo & extract seats + carpets
- ☐ Leather: clean, then condition
- ☐ Condition all plastics & vinyl

8 Jambs, trim & glass

- ☐ Clean & dress door jambs and trim
- ☐ Streak-free glass, inside & out

9 Final

- ☐ Set up fans / cracked windows to speed drying
- ☐ Final inspection under light with customer
- ☐ Payment & review request

★★★★★ **Before you leave:** hand over keys, walk the finished car together, then ask for a quick 5-star review.
